

# Help bring the first MRI *home* to St. Mary's Regional Cardiac Care Centre.

# 82 Days

is the average time referred patients in the Waterloo Region have to wait to have an MRI scan.

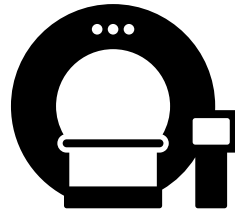

St. Mary's General Hospital is the only hospital in the region without MRI.

St. Mary's is the only regional cardiac care centre in the province without this vital piece of equipment.

# 2,500+

patients currently waiting for elective MRI scans.

There is currently a

# 6-8 Month

waitlist for elective outpatient exams.

State of the Art MRI at St. Mary's will provide numerous benefits to the community.

Reduced Wait Times

Swift Diagnosis

Eliminate Patient Travel

Machine Downtime Backup

While government funding provides for the day-to-day operational costs of the hospital and the staff within its walls, the purchase of medical equipment, including new technology, must be paid for by our generous community.
